

Baklava

“Designing a lamp isn’t so difficult, but coming up with something new which stands out from the crowd is another matter entirely,” reflects Eero Koivisto on the conception of Baklava.

The model was unveiled in 2011 as part of Claesson Koivisto Rune’s commission to design the highly renowned Nobis Hotel on Norrmalmstorg, Stockholm.

M, SHADE IN OFF-WHITE WITH RED DISC

S, SHADE IN OFF-WHITE WITH RED DISC

Specification
